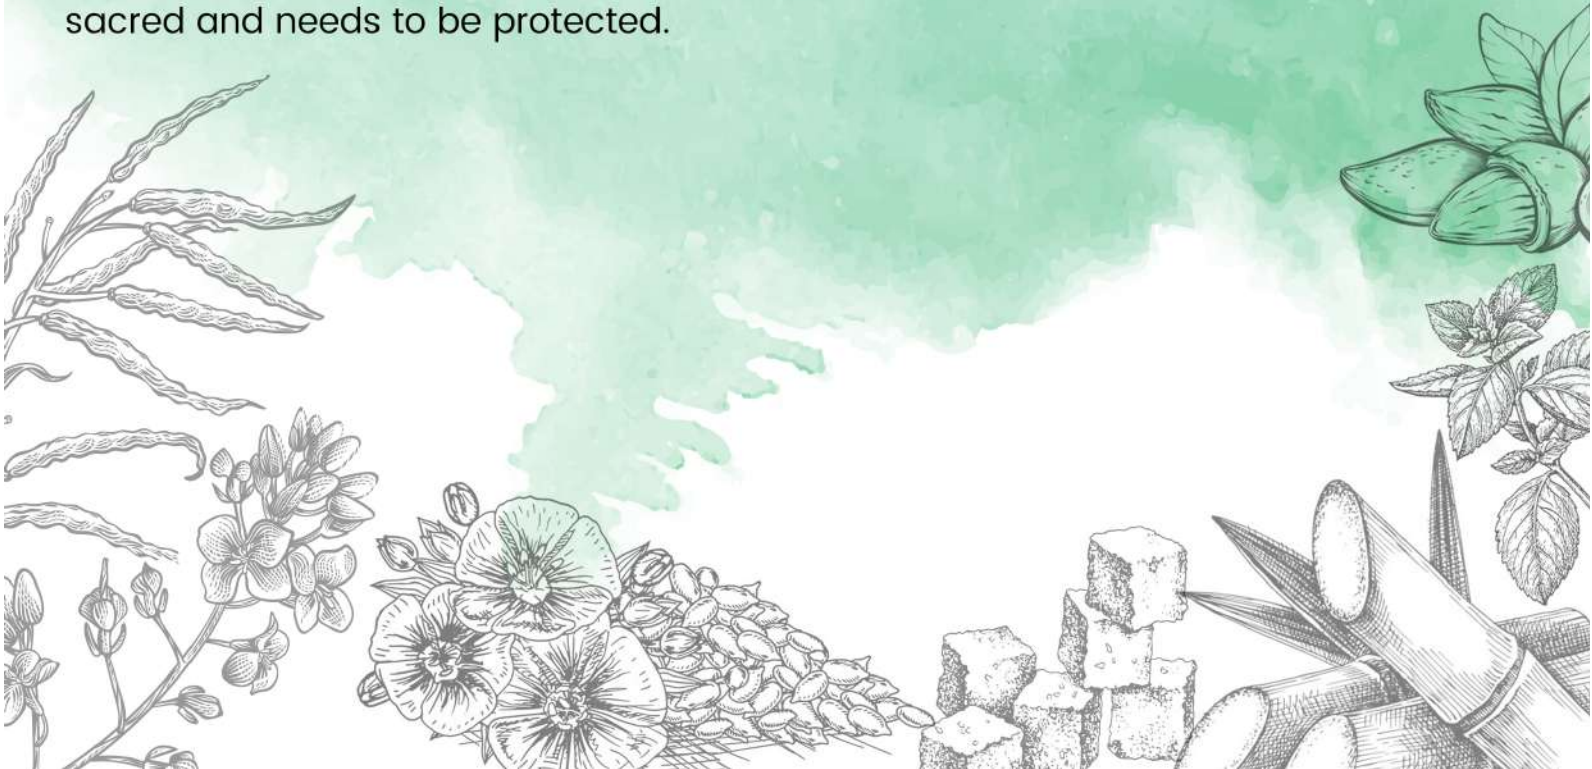
IKHU RAS
Power
Purity
Come...Let's together make the world pure

ABOUT US

Founded by next gen individuals, Ikkhu Ras is not just a brand. It's a journey of hard work and dedication to bring about a new revolution in the field of serving pure & natural food to the world. With the humble blessings of Acharya Shri 108 Vidya Sagar Ji Maharaj and under the guidance of Muni Shri 108 Pranamya Sagar Ji Maharaj, we incorporated Ikkhu Ras in 2020 with the aim of emerging as an organic and wellness house. We believe in the principles of Jainism and strongly preach & practice Ahinsa in our production activities. Use of 'Jiwani' technique and organic materials make our food items suitable for Jain Vratis. The pure & chemical free nature of our products will help to maintain balance between your spiritual & emotional being, nutrition levels and a healthy lifestyle. Quality consciousness is imbibed and inculcated into our processes. We constantly aim to excel in consistency and innovation and keep adding to your gourmet experience over the time to satisfy your taste buds. With your support and belief, Ikkhu Ras promises to build a strong bond with our customers and serve you in the best possible manner

VISION

Ikkhu Ras works on the vision of 'Pure Food For Everyone'. We strongly believe in the virtues of Jainism and practice Ahinsa in our activities. So we aim to serve pure & healthy products that are completely cruelty free or āhinsak because every life is sacred and needs to be protected.



ALL NATURAL AND GOOD FOR YOUR HEALTH

Pure and Healthy

IkkhuRas's development has been incorporated with energy to serve purity to the world seeking high-quality natural produce. Our aim is to excel through purity, consistency and constant innovation. We constantly assure to deliever our clients with the best of taste for everyone that begins from farmland and ends at the consumer's plates.

Natural Process

Each item is prepared naturally with maximum care & inspection; to serve our clients with finest quality pure products. Every process strives to make food production more sustainable & to empower healthy life/ keeping intact the nutritional value.

Environment Friendly

Ikkhuras is committed to indigenous food security and non-chemical means of production. Our methods are in sync with the environment's protection and pollution control. Hence 'Going natural' is our motto.

100% Pure & ahinsak

We are not just a brand selling its products. We offer a complete 100% pure n ahinsak food range to the world. Any type of killing and harming of plants and animals is strictly prevented in our processes

Healthy Products

Quality is imbibed in our operations that empower a healthy lifestyle. Ikkhu Ras's products comes as a healthier substitute to those available in the markets. A complete health package is assured from our side.

Fast & Fresh Delivery

We are backed by a robust system that monitors and controls prompt customer service and accurate delivery of every order. We adhere to stringent quality practices.

Full of Minerals

Adding high nutritional value to your diet is our key goal. We constantly work to maintain all the necessary nutrients n minerals in our products for high standard of living.

WHY NATURAL FOOD IS GOOD FOR YOUR HEALTH HOW NARTURAL FOOD HELPS YOU FEEL BETTER

Including pure & natural items to diet helps us to lead a healthy lifestyle. Ikkhuras through its pure range of products helps you to remain close to environment and improve overall well being of mind and body.

- **Best in taste & health**
- **Guaranteed toxins free**
- **Preservatives cutback/free, last longer**
- **No chemical added colors**
- **Environment friendly.**

Plain Jaggery

GOODNESS OF PURITY

At Ikkhu Ras, Jaggery cubes is prepared through a completely natural method. It straight away gets started with the extraction of juice from chemical-free – organically grown sugarcane. The sugarcanes are pressed through machines in order to extract all the sweet juice or sap from them. The juice then passes through a filter where a plant-based organic clarificant – 'suglai' is added to purify it. ('Suglai' is a plant that is crushed to activate its enzymes & then added to the juice.) Usually, sodium hydrosulphide is used to clean it but at Ikkhu Ras we use 'suglai'. The juice is now placed in huge flat-bottomed pans and boiled for hours. With constant stirring, the impurities or residue appearing on the top of the juice is continuously removed. The juice is left to boil until only a yellow, dough-like thick paste remains in the pan. This paste is then transferred in huge molds. It is then left to cool down. The solid jaggery is now mashed & crumbled to give it a powder-like form. The powder is then put into cubical molds to form Jaggery cubes.

- Efficient and effective detoxifier
- Excellent source of iron
- Cures cold and cough
- A better option than refined sugar
- Has its Natural goodness
- Rich source of zinc and selenium

Dry Fruit Jaggery

100% NATURAL

Ikkhu Ras prepares dry fruits Jaggery through a completely natural method. It straight away gets started with the extraction of juice from chemical-free – organically grown sugarcane. The sugarcanes are pressed through machines in order to extract all the sweet juice or sap from them. The juice then passes through a filter where a plant-based organic clarificant – 'suglai' is added to purify it. 'Suglai' is a plant that is crushed to activate its enzymes & then added to the juice) The juice is now placed in huge flat-bottomed pans and boiled for hours. This paste is then transferred in huge molds. Here the various dry fruits: almonds, cashew nuts, nuts are added and the paste is left to cool down. Eventually, we get dry fruit jaggery.

Khandsari

NATURAL & ORGANIC

At Ikkhu Ras, we prepare Khandsari through a completely natural method. It straight away gets started with the extraction of juice from chemical-free – organically grown sugarcane. The juice then passes through a filter where a plant-based cleaning agent 'suglai' is added to purify it. The sugarcane juice is then set to boil in large pans. The impurities appearing on the top of the juice are continuously removed. The sugarcane juice is boiled until it turns into thick liquid jaggery syrup. The syrup is let to stay for a couple of days for the formation of sugar crystals in a Crystallizer. Finally 'raab' the main component is extracted from the process of crystallization. The 'raab' is now transferred to a machine / vertical spinner. Here the khandsari gets separated from the sheera / molasses. The process of separating sugar crystals is mechanical hence keeping the main product chemical-free. No bleaching or refining agents such as suphur are used anywhere in the process that is why Ikkhu Ras khandsari is slightly yellow in color.

- Aid blood purification
- Effective in weight loss
- Aid digestion, bone health and the lungs.
- Healthier & superior substitute to brown sugar and white sugar

COLD PRESSED

Yellow Mustard Seeds Oil

HEALTHY EXTRACT HAVING ENORMOUS HEALTH CARE PROPERTIES

At IKKHURAS, We use high-quality Rajasthan mustard seeds for oil extraction. The first and the foremost step for the oil extraction process is that our mustard seeds are thoroughly cleaned with the well JIWANI treated water (Washing mustard seeds by the water extracted from the well and water go through the process of JIWANI) to ensure the extracted oil is pure and of high quality. The mustard seeds are then dried in the sun. This step is essential in removing any water that could deteriorate the process. Finally, well-prepared dried mustard seeds are immediately fed into the mustard oil extracting cold pressed machine to extract oil. The extracted oil is again filtered to remove any unseen/ untreated impurities before the oil is bottled and stored. This is to ensure that the product that reaches you is completely pure and healthy.

100% PURE

A2 Cow Ghee

MADE FROM AUTHENTIC BILONA PROCESS

Ikkhuras A2 Cow Ghee is 100% pure, preservative-free, chemical-free, and cruelty-free. Fresh A2 milk obtained from Desi cows is boiled and set to curd, the curd is then slowly hand churned bi-directionally in a wooden churner called a bilona. The A2 butter obtained through this process is then separated and slowly heated to obtain A2 Desi Cow Ghee. This is why IkkhuRas A2 cow ghee has a grainy texture, thicker consistency, tempting aroma, and great flavour

PURE BUFFALO GHEE

Chauka Ghee

RICH AROMA WITH RICHER TASTE

Ikkhu Ras Shudh Chauka Ghee is made from pure buffalo milk. At Ikkhu Ras, we follow the traditional ghee-making process to make pure and authentic ghee. The superior quality milk obtained is boiled within 48 minutes of extracting the milk from bufallow. This is done sharply with in this time frame only to ensure that milk is boiled before the growth of micro-organisms. After that ,this boiled milk is churned into cream and this cream is then set to boil and fresh ghee is prepared .All the process is strictly done after sunrise and before sunset.

Himalayan Crystal Rock Salt

SPRINKLE HEALTH ON YOUR EVERYDAY MEAL

The unique, rosy hue of Himalayan pink salt will pique anyone's interest, but less obvious features of this exotic crystal are its incredible health benefits. There are ways to maximize your usage of Himalayan salt for both aesthetic and health purposes and you're probably eager to find out about them at this point. Contains 84 Beneficial Minerals Some of these beneficial minerals include iron, calcium, iodine and potassium. Table salt contains infused iodine, which is added to the salt after it has been bleached and stripped of all its nutrients. The iodine that is added is synthetic, which often makes the iodine harder to absorb. On a more positive note, all 84 of the minerals in pink salt are naturally present with no human intervention needed. Is Great For Body Detoxing Salt, in general, helps to transfer toxins from healthy cells to your bloodstream and this helps you get unwanted substances out of your body. Himalayan salt was proven to be efficient toxin dispeller in comparison to other common salts.

- Improve respiratory diseases
- Balance your body's pH
- Reduce signs of aging
- Improve sleep quality
- Regulate blood sugar
